

UNITED WAY'S *Virtual* DAY OF CARING

Join Head of the Lakes United Way for a **VIRTUAL Day of Caring** on **Wednesday, June 17, 2020**. There are many safe and valuable ways for volunteers to make a difference. Support nonprofit agencies in your local community - here are 8 ideas to get you started.

1. At-Home Projects

There are a variety of items that can be created at home and donated to local shelters or other organizations. At home projects include creating masks, no-sew blankets, t-shirt totes, senior care bags and much more.

2. Pick up Trash

Gather your family members and spend an afternoon picking up trash in your neighborhood or along a hiking trail.

3. Family Food Box

Gather non-perishable food items from your pantry and donate them to a local food shelf.

4. Thank the Frontline Workers

Create signs and window art at your workplace or home to show appreciation for our local heroes.

5. Health and Hygiene Donation

Collect health and hygiene items such as toothpaste, shampoo, body wash, deodorant and other items and donate them to a local homeless shelter.

6. Caring Cards

Create homemade cards and deliver them to a local senior center, or share with a senior citizen in your neighborhood.

7. Clothing Collection

Make a donation box. Take time to collect gently used clothing items to donate to a local collection center.

8. Rock it with Kindness

Children and adults alike can paint rocks with positive messages and leave them along walking trails, by mailboxes, etc. for others to find.

Share your Day of Caring project photos with us!
