**UNITED WAY**

# HOW DONATIONS ARE USED

As community support grows, so do the programs, services, and opportunities we can provide. Join your neighbors, friends, and co-workers in a movement dedicated to creating stronger communities.

## HEALTH

---

We're striving to help everyone get, and stay, healthy. From mental health to dental health, food access to care access. Programs to help our community's most vulnerable. From access to health care to transportation to appointments to making sure families have working smoke detectors.

## EDUCATION

---

We approach education from all different angles. Building tomorrow's leaders through group programming, after school programs that promote learning outside the classroom, and even educating the community on how to keep each other safe.

## FINANCIAL STABILITY

---

A strong financial future requires more than a steady paycheck. We're seeking to give our community financial freedom and peace of mind. That starts with access to housing, job training, credit counseling, and money management programs.

# OUR WORK IN ACTION

## WHAT DOES HLUW DO?

We bring people and organizations together to do more than any of us can do on our own. Employers, nonprofits, government, educators, labor, health providers, community leaders, you, and many others partner with us. Together, we tackle some of our community's toughest issues. We find solutions that create real change. Together we're making progress toward stronger communities.
